

Inexpensively **Expand Your Patient Base and Treatment Options** **with the SPINALCORE PLATFORM™**

Insurance Reimbursable Therapeutic Exercise Programs for Patient Rehabilitation – Code # 97110

The three distinct ring training stations of the SpinalCore Platform™ allow for countless specialized therapeutic exercise programs for all of your rehab patients. Ring training is joint-friendly, easy to learn and effective.

Gravity Assisted Spinal Decompression for Patients with Lower Back Pain – Code # 97012

The SpinalCore Platform™ utilizes an easily adjustable chair that accommodates any size patient. Infinite angular adjustments can safely decompress the spine while strengthening supportive core muscles in a safe, inexpensive, easy-to-operate environment.

Standardized Initial and Periodic Fitness Testing to Analyze Patient Health and Fitness

Easy to administer, **20 Minute SpinalCore Platform Efficiency Test™** provides instant feedback of functional core strength and overall fitness. Our exclusive testing procedures establish a valid baseline for all patient wellness programs.

Upper Body and Core Strength Programs for Adults, Kids, Senior Citizens and Wheelchair Patients

Over 100 biomechanically correct bodyweight exercises open new opportunities to expand your practice and create innovative treatment opportunities. The SpinalCore Platform™ is the only professional quality total fitness machine that is wheelchair accessible for physically handicapped patients and easy to use for children and senior citizens.

Increase Your Income with Medically Supervised Weightloss and Exercise Programs

Six professionally designed **SpinalCore Aerobic CoreTraining™ Exercise Programs** combine the benefits of a cardio-vascular workout with bodyweight strength training to produce maximum benefits in less time — because **TIME MATTERS to Everyone.**

The Perfect Machine for Circuit Training Large Numbers of Patients in Less Time – with Minimal Supervision

The SpinalCore Platform™ immediately accommodates any body shape, weight, or height, with no waiting for body size or machine resistance adjustments. The indestructible platform easily fits in any treatment room requiring only minimal space and is conveniently portable if necessary.

How Much Money are You Losing . . .

by Not Offering the SpinalCore Platform™ and Our Exclusive Aerobic CoreTraining™ and Permanent Weightloss Programs to Your Patients?
